

Physician Letter of Support for Nurse Practitioner Authority to Practice Bill.

January 2010

I am a physician, practicing in _____ Maryland. I support the Nurse Practitioner Authority to Practice bill.

I support the elimination of the 20 page collaborative agreement between physicians and nurse practitioners (the only one in the country).

I understand that this authorizes the Board of Nursing to be the sole regulating Board of nurse practitioners.

I understand that this bill does not change the scope of practice of nurse practitioners in any way.

Sincerely,

Name:
